

Mini-Workshop “Beyond the Standard Model: historical-critical perspectives”

October 13-27 2019 - The Galileo Galilei Institute for Theoretical Physics, Arcetri, Florence

Organizers

Elena Castellani (University of Florence)

Arianna Borrelli (Leuphana University Lüneburg)

Alexander Blum (Max Planck Institute for History of Science, Berlin)

Participants

Radin Dardashti (Wuppertal University)

Richard Dawid (Stockholm University)

Sebastian De Haro (Amsterdam University)

Doreen Fraser (University of Waterloo)

Stefano Furlan (Max Planck Institute for History of Science, Berlin)

Giora Hon (University of Haifa)

Milla Lifke (Bielefeld University)

Niels Martens (Aachen University)

Casey McCoy (Stockholm University)

Daniele Oriti (Max Planck Institute for Gravitational Physics, Potsdam)

Grigoris Panoutsopoulos (University of Athens)

Pablo Ruiz De Olano (Max Planck Institute for History of Science, Berlin)

Kian Salimkhani (Bonn University)

Alessio Squarcini (Max-Planck-Institute for Intelligent Systems, Stuttgart)

Jeroen Van Dongen (Amsterdam University)

Martin Warnke (Leuphana University Lüneburg)

Porter Williams (University of Southern California)
