

July 3-6, 2006

Critical Point and Onset of Deconfinement

- Deconfinement phase transition and critical point of strongly interacting matter
- Signatures of these phenomena in nuclear collisions
- Effective models
- Energy dependence of particle production in nuclear collisions
- Reference models of particle production

Advisory Committee:

M. Gaździcki, D. Röhrich, P. Seyboth, E. Shuryak,
M. Stephanov

July 7-9, 2006

Correlations and Fluctuations in Relativistic Nuclear Collisions

- Correlations and jet production in nuclear collisions
- Fluctuations in statistical models
- Correlations and hadronization
- Correlations and fluctuations: measures and techniques

Advisory Committee:

G. Roland, T. Trainor

Local organizing Committee: A. Barducci, F. Becattini, L. Ferroni
